```
body {
    text-align: center;

}
```

```
font-family: Arial;
```

What other styling changes can you think of?

```
body {
  text-align: center;
  font-family: Arial;
}
```

- Why don’t we center the content on the page?
- Let’s change the font to something nicer!

Let's blend in some CSS herbs & spices:
