Prophet Orpheus

To give a description of Orpheus,
we want to use the `<p>` paragraph tag.

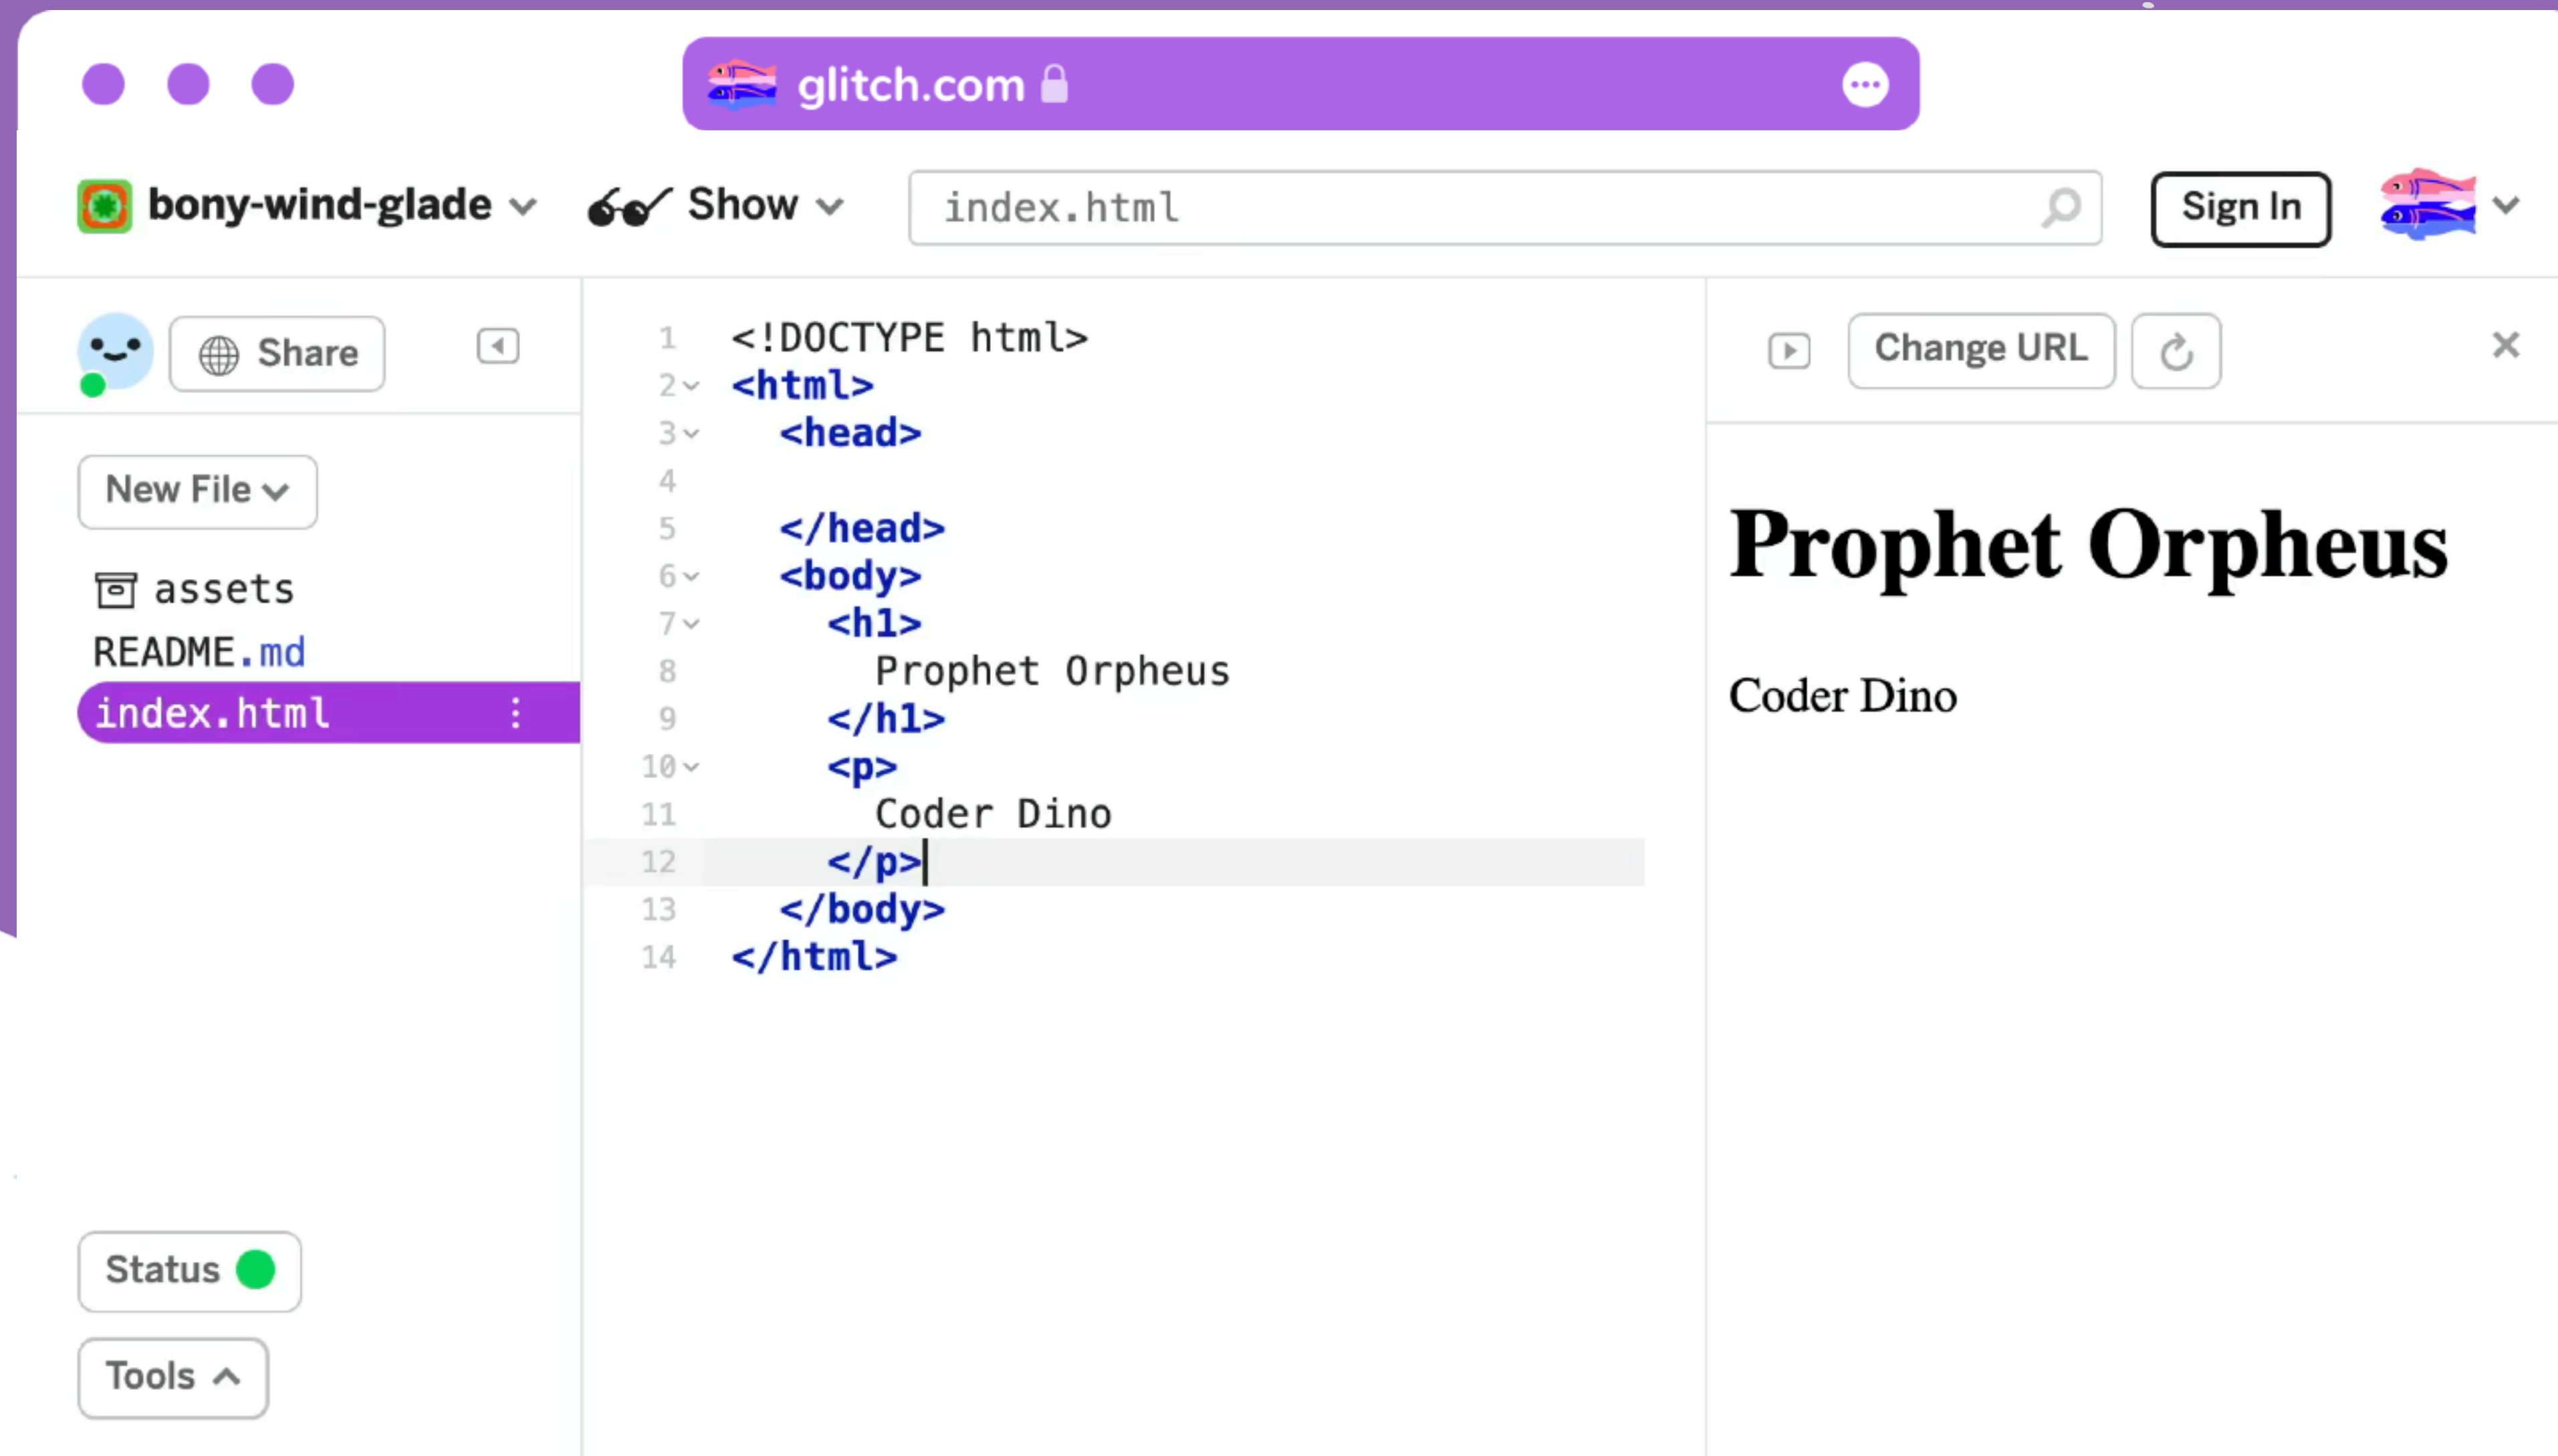

The screenshot displays the Glitch.com web editor interface. The browser's address bar shows 'glitch.com'. The user's profile is 'bony-wind-glade'. The file 'index.html' is selected in the file explorer on the left. The code editor shows the following HTML structure:

```
1 <!DOCTYPE html>
2 <html>
3   <head>
4
5   </head>
6   <body>
7     <h1>
8       Prophet Orpheus
9     </h1>
10
11   </body>
12 </html>
```

The rendered preview on the right shows the text 'Prophet Orpheus' in a large, bold, serif font. The interface includes a 'Share' button, a 'New File' button, a file explorer with 'assets', 'README.md', and 'index.html', a 'Status' indicator, and a 'Tools' menu.

You can add more `<p>` tags
to further describe Orpheus!
