**All aboard The Hacker Zephyr!**

Hack your way across America by rail, from coast to coast.

Don't run your coding club alone. Make it a Hack Club.

Hack Club is a nonprofit network of high school coding clubs and makers around the world. **Applications are now open.**

THE RUNDOWN

High school clubs for **creative coding**.

Hack Clubs at high schools meet weekly (this year, via Zoom), typically for 1.5hrs after school. As a club leader, you get members (mostly beginners) started on something to learn/create, then members work at their own pace, building websites, apps, & games, and presenting them at the end.

HTML

The image features the letters "CSS" in a white, rounded, sans-serif font, centered within a light blue rounded rectangle. The rectangle has a soft, pill-like shape with rounded corners. The text is bold and clear, standing out against the solid blue background.
